DETAILED ACTION

Terminal Disclaimer

The terminal disclaimer filed on October 28, 2003 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of any patent granted on application number 09/988,830 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

Claims 1-4 are allowed.

The following is an examiner's statement of reasons for allowance: As the claimed invention was read in light of the specification, the prior art of record fails to disclose or render obvious the purge gas comprising molecular oxygen at a total partial pressure of 1×10^{-4} Pa to 1 Pa. In addition, Applicant's arguments, dated 1/29/04, regarding the prior art's pressure range and the ability to combine to two sources are persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
